## How Can Dodson Help Bolster Your Current Solution?

When it comes to payment processing and point of sale technology, you need to know that you are in trusted hands. With us, you can be sure your solutions are the latest and greatest and that you're backed by a provider that cares about your business growth. Explore some of our offerings and see the game-changing potential for your business.

### Dual Pricing & Surcharging

Reward customers for paying in cash and help offset fees from credit card companies. No longer do you have to bear the cost of your customers' convenience. At Dodson we can help you set up effective programs to help you manage different pricing structures based on cash and card payments. All of which is clearly displayed on your system.

### Point of Sale Systems

Our state-of-the-art POS systems help you to manage your inventory, track sales, and improve customer loyalty. You can gain real-time insights into your business performance, make informed decisions, and offer customers a variety of payment options, including contactless payments, gift cards, and loyalty programs.

### ACH Processing

ACH processing allows you to accept electronic payments from your customers' bank accounts directly into your own. It's a fast and secure way to process payments with low processing fees, eliminating the need to handle cash or checks.

### Contactless Payments

Accept contactless payments from all major credit and debit cards, as well as mobile wallets like Apple Pay, Google Pay, and Samsung Pay. This provides your customers with a fast, secure, and convenient checkout experience, while also reducing the risk of fraud and infection transmission.

# Industries We Serve

While we cover an array of industries, we highlight the ones we work with most. Explore how our solutions can benefit your business in any of these niches and beyond.

## ► Retail

In the bustling retail arena, every transaction propels your success. Dodson's POS and payment services expedite checkouts and manage real-time inventory, offering crucial consumer insights. Seamlessly integrate various payment structures for cash and card transactions, ensuring a smooth purchasing journey for customers. Our transparent pricing models provide a clear cost picture, simplifying transactions.

## ► Restaurant

You're focused on providing the best quality food to your customers in an efficient and fast manner, without errors. With Dodson's solutions, you can offer this and more as we help you improve order production times, optimize your labor management, and implement multi-channel ordering options to reach your customers from anywhere.

## ► B2B

We understand the intricate dynamics of business-to-business relationships, and our tailored payment processing and POS solutions are designed to elevate your operations to new heights. With our solutions, you can streamline invoicing, track payments, and provide your partners with easy-to-use payment options.

## ► Field Services

While working in the field, it can be hard to find payment solutions that are effective on the go. Allow our mobile payment processing to help you get paid more efficiently. Have the ability to send text invoices instantly and stay PCI compliant when finalizing business transactions. All of these features and more will help you bring your business with you and close deals faster and more securely.
